Press Release

FIC Shanghai: SOLACTIS Group announces new developments in China

SOLACTIS Group - Jouy-En-Josas , April 20th, 2018

SOLACTIS Group, specialist of bio-science based ingredients designed for human nutrition and animal feed companies, has recently participated to FIC (Food Ingredient China). The FIC is the major food ingredient exhibition in Asia. It has taken place in Shanghai from March 22th to 24th .

SOLACTIS Group presented the new-food-dedicated grade of Solactis® Galactofructose syrup during the exhibition and has received positive welcome from major Chinese food companies. These feedbacks confirm the status of Groupe Solactis as a leader of health innovations through food ingredients active on microbiota.

“China is a well established market for healthy food, where the consumer is aware that good food makes good health”, says Pascal RONFARD. “It is therefore very challenging for Groupe SOLACTIS to develop in this country some more innovations: we trust that our latest product developments and science will appeal to the local market therefore. It was very important for Groupe SOLACTIS to participate to FIC and closely work with its partners in China to develop the solutions for the future.”

Groupe Solactis is represented in China by the company: Shanghai Bio Nature Ltd.

Groupe Solactis

About Solactis Group:

Established in 2013, SOLACTIS Group is a **supplier of ingredients from bioscience, active on microbiota**, and designed for **human nutrition and animal feed material** industries. SOLACTIS Group SAS produces non-digestible oligosaccharides, as **first developments in line with the most advanced science on gut microbiology**.

SOLACTIS Group is a **laureate of "INNOTECH"**, from Entrepreneurs network "Réseau Entreprendre", and has successfully achieved health claims from most demanding authorities worldwide.
